Overall Goal: support student success

Establish a national Standard for post-secondary institutions to support student success through the development and implementation of a practical and flexible framework that enables institutions to protect and promote students' psychological health and safety.

Project Objectives

1. Development of a National Standard for Psychological Health and Safety of Post-Secondary Students

2. Stakeholder Engagement *INFORM-CONSULT-COLLABORATE-EMPOWER*

3. Tools and resources for institutions

4. Indicators for success

5. Uptake of the Standard by institutions

Questions for our panel

What mental health challenges do graduates experience while at school or as they enter the workplace?

What can be done both in preparing students and the workplace to promote mental health of students today for tomorrow's workforce?

What are your thoughts on how the workplace standard and the student standards could compliment each other to improve the mental health of tomorrow's workforce?
